**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

WE need competitive broadband providers. I live in a small rural community and was amazed at the internet service and options I have. I can get better and cheaper internet here than I could when I lived in bigger cities. I do not want to go back to paying for slower service at higher rates. I want to keep my fiber optic internet with the company that took the risk and invested in building the infrastructure. Having great broad band service where I live is great as I stream a lot of data on movies and such since I dont have a video store anywhere near. Please let me have my internet the way it is and dont give the big companies even more leverage.

Jeff Walter
