**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Even in a city like San Francisco, we are stuck in certain neighborhood with only an option of one or two providers of internet service with ridiculously high pricing and relatively poor service. Only by allowing competition, the companies will have to provide better quality service instead of dominating the market and spamming us with paper mail and ads everywhere , trying to convince us to subscribe to their poor service packages that sell us stuff we don't need, like TV and phone together with internet.

So, in order to get more customers, they should focus on providing better service, not pushing others out of the game, so that they can keep doing what they are doing and that is providing a poor service for a high price.
