**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer that in the past was served by AT&T for DSL internet/telephone in San Francisco, and the service I received from AT&T was very bad. For years I struggled to get them to fix static on our line -- they never did. When it became available, I switched to DSL/phone provided by Sonic.net, and I have received excellent service ever since. Now I have upgraded to broadband fiber and phone from Sonic.net, and it is fantastic. Broadband is critical for both my home use, and my business needs. Please keep competition alive in the broadband market. In the future, I plan to move to a rural property I own; the only provider there is AT&T, and I dread having to return to their poor quality and overpriced service with narrow bandwidth. We need more competition, not less!
