**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please save telecom competition! Without it, our access prices will soar, monopolies will have more power, and smaller companies with good ideas, products and services that move industry progress forward, will be snuffed out! This is totally in contrast to the President's agenda and policies, to boot! It will stifle job growth, and indirectly, economic growth overall. How? Less disposable income to spend elsewhere is the first obvious answer. However, by cutting off competition, no companies that can add value to the overall economy, will be able to grow and make contributions to our economy. So it's a much bigger impact than what meets the eye, on the surface. Plus, frankly, it is un-American to block free enterprise from growth opportunities that might potentially change the world.

I do not think that you would want that on your hands.

Vote for the small guys (and gals, etc.) out there! Give them a fighting chance to compete on a level playing field! Fair is fair!

That's all we can ask for.

Thank you, I know you will do the Right thing for our country.

Thank you for your service,

Michael Williamson
