**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Lets keep the playing field fair, honest and open for competition to all internet providers, including the locally based businesses that provide genuine service. We don't want a world dominated by one or two or three giant internet corporations, we want to bring honesty, fair play and integrity to competition in the market place. Enough of this dog eat dog mentality.

Communication is an essential part of human life and broadband is a critical component of maintaining fair and open avenues for communication to millions of people. People, schools, businesses and local organizations thrive and need this avenue of fairness and integrity in the market place, lets keep it that way.

Those of us living in rural communities want and need a competitive phone and DSL and fiber options in the market place, it keeps us connected to our families, communities and the world. i\It keeps us united as a people and a country.

What makes the market place what it is but the working people of America. People want and deserve fair and honest pricing for services not constant rate hikes by giant corporations to feed their board members and give out lavish bonuses to those that are already feeding from the trough of corruption. What you give you receive.

Manuel Vazquez
