**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a very happy customer of a smaller local broadband provider. I am fortunate to have fiber optic cable broadband service that provides me with fast reliable internet service connection. I am an engineer that routinely transmit and receives large drawing and video files, so it is imperative that I have this service. The small local providers like mine are instrumental in keeping the high speed access to the internet growing. Please continue to allow open competition by keeping access to all parts of the internet infrastructure open to all providers large and small. This country thrives because of small business so please do not stifle the ability of smaller internet service providers to compete with the "Big boys". Do not shut off the unbundled network!
