**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition. I choose a competitive provider because I receive much better service at a much lower price than going with an incumbent provider such as AT&T or Comcast, which suppress competition through monopolistic tactics and seek to push anti-consumer policies through the FCC. Broadband at a reasonable price is critical to my home and family. I have DSL through a competitive service provider currently, and if the FCC restricts their ability to cost-effectively provide this service, it will have a huge impact on me and my ability to have broadband internet service at an affordable price. All I ask is that the FCC increases competition in the broadband internet market, rather than stifling it.
