**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer an educator and self employed designer. The internet has given me so many opportunities especially as a stay at home mom. When my children were young I knew I needed to provide for them, but the idea of leaving the house to find jobs was an extremely daunting task. With an efficient and affordable internet I was able to find jobs and make valuable professional connections and remain at home with my children during that time.

I do not believe that deregulation is a good idea because it reduces consumer choice and and market competition.

I believe an open internet that is efficient and affordable is key to bringing opportunities to people of all income levels. Having internet access is crucial for life as we know it. Neither the content of the internet, or the method of its delivery should be limited or exploited by corporate greed.
