**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Hi!

I live in a city, that despite the huge demand for high-end residential internet access, there is NO competition for high speed internet. There is only one such provider for my home, but they offer no SLA, and have reliability that is commonly regarded as poor. I would love it if we had many providers to choose from. At least then, a reliable offering might appear. We need ISP competition. Please encourage a market that supports innovative providers instead of the existing entrenched monopoly.

Thanks.... Kurt :-)
