**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

When I moved to my current home, I was told that there was a law that prevented me from having more than two choices of internet providers in my area. This is incredibly frustrating as my only two options are Comcast/Xfinity and ATT. I tried both: ATT doesn't even have the capability to stream the bandwidth is so low in my area. Comcast is a terrible company that I DO NOT WISH TO SUPPORT, however because of this law I have no choice. This goes against the natural competition that should keep companies "in check". I'm sure this law was lobbied into a law by Comcast themselves, as they have unlimited funds to do so. This absolutely should not be allowed. This takes away consumers' rights to choose a company based on the natural way competition would allow. Instead Comcast has created a "steering" situation for consumers where they've funneled the natural economy towards them. Put an end to this so that consumers have the option to pick great companies like Sonic. I can't say how upset I am that my new home isn't allowed to use such a fantastic company.

Thank you for your time,

Jennifer Hong
