**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a long time customer of Sonic Wireless in San Francisco for both internet and telephone service. I was a customer of their Fusion service which provides DSL over unbundled AT&T copper wires, and now I am a happy customer of their gigabit Fiber network. Both their Fusion and Fiber service rely on unbundled network elements to provide customers like me competitive internet access. I chose Sonic over Comcast and AT&T because Sonic has superior internet service, their customer service is excellent and the company supports net neutrality. I am a senior software engineer at a major tech company and I rely on high speed internet service in my home to perform my job. I was able to compare internet service providers with my neighbors who are Comcast customers and Sonic was the clear winner in terms of reliable high-speed internet access and customer service. Please support broadband competition and local competitive internet providers like Sonic.

Thank you.
