**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

AT&t and their trade association, US Telecom, have recently petitioned the FCC to take away access to critical unbundled network elements. These unbundled elements are critical last-mile copper and inter-city fiber; the very technology that allowed us to grow, expand fiber deployment, and compete. Without access to this infrastructure, Sonic is at risk of losing access to a huge portion of their customer base, leading to potentially higher rates, less fiber deployment, and even less options for consumers.

I have competitive ASDL and telephone services through Sonic. Both of which are cheaper and better than the At&t offerings. I hope to get fiber through Sonic this year as well. Do not remove access to these unbundled network elements.

Thank you.

Andrew Miller
