**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I live in Napa, CA and for the last 14 years have been extremely grateful for Sonic.net--my ISP. Other service providers try to sell us their services but none can compare to the service, tech support, and price that I get from Sonic. For \$55/month I get phone with free international calling to Canada and great broadband service for our computers. When I ask a salesman if they can provide such a good deal, they have no reply.

On top of that, Sonic is committed to Net Neutrality. Now more than ever we need to preserve the infrastructure access for companies such as Sonic who are committed to doing the right thing for their customers and the people of this country rather than sacrificing their customers best interests for the sake of their bottom line.

You must insure fair broadband competition which has been a cornerstone of technological success in this country.
