**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We use our fiber network to do our jobs--mine is as a software engineer consulting for the government, building a system to make it possible for military personnel and their families to move their households with ease when they're given new orders every few years. Surely you can recognize why cutting off access to competitive internet providers would have negative effects--more expensive, less reliable, slower internet impedes my ability to ship code.
Please do not deregulate this industry. It's difficult enough to get competition in this giant field as is.

Rebecca K
