**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a customer of and ISP called Sonic based in Santa Rosa, CA. Before the service from Sonic became available in my area. The only option for high speed internet was Comcast. Sonic deployed fiber to the area and leased me a 1 gbit fiber connection for about 70% of what a 100 mbit broadband connection from Comcast cost. On top of being cheaper, their customer support is much, much better than Comcast's.

I am a tech working and often have to work from home. Having a reliable, high speed internet connection is critical to my employment. Please support broadband competition as capitalism is the best solution for making sure ISP provide good service.
