**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm old enough to remember when the government ran the phone companies and the Corporate Mafia made the Airlines and Phone Co go private. For better competition and service, HA!
ATT runs the world and is the worst. All we tax payers paid privately and publicly through tax and high rates for the copper lines to be laid and infrastructure to be built. I pay higher taxes in CA thanks to Trump hating CA (you know the economy of Germany and the whole country combined, us).

So ATT gets huge tax breaks that I pay more for. I was literally on a handicap one armed surgery and had to fight for two days with ATT. It's a full time job. I went with a local company, even paid more and a human answers the phone every time. I get emails and responses the same hour and enjoy giving them my \$.

What happened to free trade, open market capitalism. These companies are so overgrown, so ethnically challenged, such evil companies, they provide no service and you force us to them like cows down the slaughter chute. Shame on all you GOP \$ thirsty sell outs. If ATT really was a great employer and customer service provider, why are folks running from them, why are they laying people off?

Here's another idea. Lets close all the stores but Ivanka's, close all the DMV's except just one in Westchester NY and it can also serve as the Nations only voting location as well.
