**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

For 25 years my internet access has been provided by a small company called Rawbandwidth.

We can not afford even the basic Cable service for our television and so have installed a HDTV antenna and membership in streaming services like Netflix and HBO Now.

We chose a smaller, local ISP competitive provider because it provides us with the greatest bandwidth services for the least cost.

Now, as a retired teacher on a fixed income, I don't want to lose the quality of service I've enjoyed for the past 30 years just because larger corporations (who were nowhere in sight when I first got on the internet) now feel entitled rule the bandwidth seas.

Please do NOT squeeze these independent ISP's out of business. We need the Bridge 2 Broadband!!
