**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We were a Comcast customer until about a year ago when an option became available for Sonic. I'm real happy to have a choice in my selection of internet service, as for so long there was no choice. Yes, there were satellite-based services, but they really do not compete with land-based technologies.

Since using Sonic we've found fiber technology to be as fast and reliable as promised. Please do what you can to promote fiber technology and the competition that keeps companies looking for new and better technologies.

Robert Burns
