**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It is SUPER important to maintain competitive internet access for many reasons including: it lower prices, can provide faster speeds, small companies maintain features that you value, and i get way way better customer support. Having competition in the marketplace is what capitalism and this country are all about and it helps keep prices lower and helps drive innovation, compared to only having one or two choices such as Comcast vs. AT&T who are massive, expensive, and have terrible customer services. They are also unable to provide services where I live...and without small companies I would be left with non alternatives.

Thank you for taking my thoughts into consideration,

Larissa Hernandez
