**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After years of high rates, poor service, slow service and long-term contracts, we switched to Sonic.net at our home. (I wish they were EVERYWHERE!!!)

Their service is top-notch, the connection is World Class (Make America Hi-Speed Again), and the costs are a fraction of what AT&T or Comcast could provide if they chose to be World Class.

I've been involved with technology since the 1970's. I've had phone modems, DSL, T1, and "hi-speed Internet" from the clowns of MaBell and Comcast.

Sonic has been the best experience in my connectivity life. Oh, and they through in phone service, which I didn't think would matter, but, in over a year we have received a total of ONE robocall, spoofed CallerID call.

ONE.

With Comcast, we stopped answering our phone.

Don't screw us over again, please.
