**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My wife and I make use of broadband internet to enable us to work from home and run a private therapy practice. We chose to get Gigabit internet over fibre to our home, from Sonic, to enable the cost effective and reliable connections that we need for our business conference calls, real time document sharing and multicast videoconferencing.

This was not available from the big incumbent operator ATT; we were struggling with their rather spotty DSL service, and high bills. Our switch to lower cost higher bandwidth fibre has been a major step forward for our work lives.
