**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My family dropped all the other providers because they don't know when to quit raising the prices. No end. We had the chance to join SONIC and their fiber system and the cost was more inline with what we could pay. I don't need 300 channels in every language and what we do watch is not that much but, the other providers don't care and want to gives us all these channels and say that is the reason for the high price. Oh yes, after your year is up plan on another increase. Today, all my neighbors are on the same page as I am. Today everything is base on Power and Money. If I am wrong, I apologize but the way it sounds this is only a money issue and I think the FCC is a big part of it. These BIG Providers have lots of money and they use it to help their needs. They are slowly losing their customer base. Maybe you, the FCC are part of it too? I hope not. Seems every part of our world is bought and paid for by the Big Companies.
We need these other options. Sonic is one of them.

Thanks

Ken Wheat
