**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Thanks to the opportunity for competition today I have options to select for Gig Internet at my home. Sonic has been great. Such an upgrade in reliability and speed from Comcast and AT&T who were the previous options. Service level is not even close.

I want choices to keep the playing field sharp and progressing to deliver what me, the customer, wants. I also want competition to be allowed to flourish with more competitors to keep prices lower.

As we are a more connected home Gig service is a requirement for our household.

Please support increasing competition and not reducing it through regulations and additional restrictions. We need to be free to connect in a consistent predictable manner with a high level of quality service.
