**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

There is already insufficient competition re this. Internet service is NO DIFFERENT than phone service - it's all communication and the technology is quickly merging. You allow phone service providers to compete which has been a bright spot in the economy. To limit internet service providers now would not only be wrongfully inconsistent (let alone just plain hypocritical), you would damage the economy. Big corporations are doing fine. They do not need any more government help. Your support especially right now needs to be on small businesses and communities which a loss of competition in this domain would damage.
