**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I had been forced to use Comcast as my ISP for years before Sonic installed fiber optic lines in my neighbor. I urge you to keep allowing these local/small ISPs to grow and create new infrastructure that allows for customers like me to get better internet access for less money!

I can not stand the monopoly ISPs have in certain areas where there is only one option worth getting because there is no opportunity for competition.

AT&T/Time Warner/Comcast/etc are all the same and are just pouring money into laws preventing competition from taking any of their customers. That is not what capitalism is supposed to be about. I want to be able to choose between services and give the best service my money.

Thank you for your consideration of my views and your time,

Nicholas Vogel
