**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition. Currently I am a customer of Sonic fiber internet service. I am very happy with the service that I am receiving from them. They provide excellent fiber internet at a very reasonable price. Prior to becoming a Sonic customer, my only internet option in San Francisco was Comcast. Although AT&T showed that they provided service in San Francisco, they did not offer service to my home. I was with Comcast for years and was very unhappy with their service. Comcast had very high prices, slow speeds, and terrible customer service. I plead with the FCC to please support companies like Sonic. Without them, I would be paying 2-3 time what I would be paying for only a fraction of the speeds that they can provide. Living and working in the heart of the technology boom, having reliable and fast internet is very important to me. Companies like Sonic certainly push other companies to improve on their service and certainly spur more competition.
