**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Some of us in the San Francisco Bay Area have been lucky enough to get Sonic gigabit fiber over the Comcast or AT&T. As a startup founder who works from home a lot, having gigabit broadband at reasonable cost is crucial to my livelihood. More competition is good, a lot of places are stuck with AT&T and Comcast monopolies, a handful of neighborhoods and buildings here have access to Sonic, Webpass, or Monkeybrains, competition is great and these smaller local ISPs provide amazing service and value. My own company has been using Monkeybrains for over 4 years and have been extremely happy. Before that we had Comcast and it was terrible and more expensive.
