**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We recently switched over to SONIC from Comcast, and before them, AT&T, so we have some experience with the types of service provided by these telecom giants.

Sonic has not improved speeds at lower cost but also provides better service. Competition is working to create the best possible markets for us lowly citizen / voters / consumers.

Our bill has gone down from over \$200/month to below \$100! Neither AT&T or Comcast is willing to do this.

Sonic has not had one service outage in the entire time we have been using their connection. Comcast had problems 3x a week.

I have had occasion to call Sonic tech help twice for assistance in the 4 months we have had the service - both times I reached a helpful person right away and resolved my problem.

It is absolutely essential that SONIC be able to exist in this market. They are providing real competition to the big boys and that is good for us consumers.
