**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a local customer who used to be an ATT customer with DSL internet. My DSL Internet from ATT was extremely slow and unreliable. I was not able to watch high definition movies streaming without being interrupted.

Then, Sonic came along, and allowed me to connect to the internet with glass fiber.

My internet performance was order for magnitude better. All of this came at roughly the same price as DSL.

I became really reliant on fast and reliable internet via glass fiber.

I am really alarmed that this capability is now at risk.

Please do everything you can to preserve this capability and above all at a competitive price.
