**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am Sonic Net user. Previously, I was an AT&T user. Although AT&T generously supports politicians that support their corporation, they are most unkind to their customers. Being able to chose a different provider is very important to me, because having a large number of competitors, keeps prices down to a level that I can afford.

I am using Fiber optic service at home for my stock trading. The speed and reliability of the Sonic Fiber Optic service is vital to my success. My family uses the higher speeds for movies and personal use.

We will hate everyone that makes a change that results in higher prices and crappy service like AT&T and Comcast have. "Deregulating" in this case will mean a closed market and that folks like myself get hosed. Don't do it. We will come for you with torches and pitchforks in the night, if you do .

So, in short I support maximum broadband competition.
