**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please stop allowing big corporations control of the internet. The access to information in an open world is critical to humanity and must not be bought or sold or controlled by the few. It disappoints me how our government of America is more like China and less like Canada and Europe, just wanting to control information and trap the American people in a web of lies and deceptions. America is built on a free market, and even though i'd rather our internet be a public utility, I also believe in freedom to compete in a fair way. Monopoly's are bad for the world, and should not be allowed to happen. Microsoft had to be broken up, Pac Bell did also. Please stop allowing the corporations control and help small companies compete fairly.

I write this today to support Sonic Fiber internet, a fair priced and hassle free internet service. I had used both AT&T and Comcast and both were horrendous services. Comcast has been rated for YEARS as the lowest ranked customer service company. A company that wants to create a monopoly will never treat their customers fairly. I've had amazing support with Sonic Fiber and I WANT TO CONTINUE USING THEIR SERVICES. I am a consumer and should have the right to choose many different service providers that provide GOOD service.

Please stop allowing big companies to control America, it is pitiful for a country that is built on freedom and integrity.
