**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I always had problems with my internet connection and before Sonic start offering their services in my neighbor my connection was many times too slow to be used, other times the bill came wrong, most of the months I had problems while using Comcast the only option available at the time.

As soon as Sonic announced that they would come to my neighbor I signed up for it and after the migration, all of my problems are gone! The internet bill is correct since then and the cases where I had no connection were so rare that I would say my connection is working 99% of the time with Sonic.

I wish there were more options to choose from, I only have two providers option nowadays (Sonic or Comcast) and I wish there were more options to choose from.

Please don't do any price hike that will increase the cost of internet and telephone services. I really need this service for my daily usage to work and to communicate with my family.

Today I use a fiber connection and I couldn't be more happy with it, the previous DSL connection was awful like I mentioned, technology must evolve and more competition will bring newer technology to people that need.
