**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have had Sonic DSL service for a number of years and recently switched to fiber optics. This fast , reliable service is critical to my work at home , as both my husband and I are self employed, semi retired professionals.

We have found Sonic to be fairly priced and definitely workable for those on a fixed income, or low income. I have explored Comcast, DirectTV/ATT and other providers but found their pricing to be too high for consideration. We do not want any changes in our service or our costs. There have been many new satisfied customers in my area, ie Kensington, CA when Sonic expanded into the area. There was much discussion on our local news network, Nextdoor and Sonic was considered to be better than other competitors due to price and customer service.
