**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband has become as ubiquitous as water and important as electricity. Allowing the small companies like Sonic to thrive in a competitive market by allowing access to infrastructure is the American way. Price hikes to these small vendors will eventually cause them to be priced out of the market and their customers to be priced out of choice. If there is no choice then the service should be run and regulated like a utility.

Thanks,

Kat Podgornoff
