**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need service provider competition, or else we will stuck with high cost, we do not want monopoly.

Price hikes will therefor increase the the cost of internet and telephone services, especially it will limit those who needed cant afford

High speed broadband such as fiber are critical to modern world, the increase demand, in particular to school and business of all sizes

We have fiber now previously connection via dsl, which is too slow for the need of our modern day world

Local broadband providers are critical with increase competition will help consumer
