**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Sonic offers an outstanding product at a reasonable price. I had been a Comcast for decades and endured continual price increases and mediocre performance. Their customer service was abysmal. In San Francisco they had a virtual monopoly - there were no alternatives. Along came Sonic. They provided excellent performance for a fair price.

I sought an alternative to Comcast for years. I looked to AT&T, but they offered slow connection speeds with minimal savings over Comcast. Sonic invested, and created the infrastructure that brought fiber optic performance to my home. Now that Comcast is faced with real competition, they have tried to up their game; something they never felt compelled to do before their product was challenged by a superior product at a much fairer price.

Don't let AT&T, and the other major players skew the playing field and limit real competition in the marketplace.

Sincerely,

ed marsullo
