**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

When living in San Francisco we chose Sonic.net over Comcast, AT&T, etc. because they are just a great company comparatively. Most, if not all, of the big ISPs have taken a *lot* of our money via the US government and in most cases have *not* delivered on their promises. They also are very anti net neutrality, which is very important to me and most consumers.

We love Sonic.net as a company so much that we left Comcast's faster service to go with DSL. When Sonic.net made fiber available to us a couple of years later we joined right away and we *loved* their service!

Please do *not* increase the cost of internet or telephone services for consumers. Broadband is very important for our entertainment, education, and many other aspects of our lives.
