**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My Wife and I support Broadband Competition. I am a longtime user of Sonic DSL and now Fiber user. We love it, the price is competitive, we love supporting small business, We think that small businesses are what make america great. Currently we access to a great ISP and Broadband that has been life changing. When I call there customer service they pick up the phone almost right away, they are friendly and are usually able to solve our issue right way. The only time we have issues is when ATT is involved. They can take days to show up and often do not show up when they say they will. ATT sucks and they can suck because there is not enough Broadband Competition and they get away with sucking.

Thanks

Byron Barrett
