**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition! That is how we keep our free enterprise the best.

Competition is good for the people, because it keeps quality high and prices low.

Competition is good for companies because their extra effort is rewarded.

For years I have wondered why the monopoly of cable tv systems is permitted, but this newest dereg makes that problem 100 times worse, and even that much more questionable.

I lived in the country, where there was little choice of internet providers, and literally no choice in phone service providers. Those companies that could provide tv and internet could charge whatever they wanted, because they had a captive audience. This is what will happen in cities as well as rural areas if competition is taken away.

Free enterprise built our economic dominance. Why would anyone want to tear apart that free enterprise system.

No! I am saying no to deregulation, and I am hoping that the FCC will also say, No!
