

FCC:

This member of the public is opposed to Pai's efforts to undermine net neutrality. The consumer protections provided currently under Title II (common carrier) of the Communications Act of 1934 as well as section 706 of the Telecommunications act of 1996 are best for the consumer and provide reasonably ample opportunity for profit for the service providers.

The public is well aware that with 17-108 the current leadership of the FCC is seeking to act against their and the country's best interest, and the parties and party responsible will be held to account.

Sincerely,

Kevn J. Sheasgreen
