**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition, not less in broadband services. I use my internet as both a consumer and as a small business owner. Comcast was constantly throttling my speed, cutting out at random times and then raising my prices without fixing any problems. I live in San Francisco so none of these things should be a problem especially from a company as big as Comcast. When I switched to Sonic, not only was I not subjected to throttling but I had fast and reliable internet for my household AND my home business at a decent and affordable price. We need to support smaller providers and stop the monopoly of big companies that only value profit over providing service.
