**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Sonic offers better prices, customer service, and quality internet then Comcast ATT and Time War ever did or do.

Fiber should be available to all users with an opportunity for fair competition- that is what is best for consumers and the market.

High quality fiber has been an improvement to my households quality of life and has been extremely reliable. Something I have had issues with using other companies and services.

Please consider the opinions and desires of the consumer in this matter. As well as companies like Sonic - who have played by the rules are trying to make a difference - now the rules are being changed on the fly at the behest of big corporations and lobbyists.
