**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please consider the needs of all Americans in making any decision that involves access to the internet. Smaller communities and those with less financial resources need smaller providers to be present that care and cover communities outside of major metro areas. Larger companies such as AT&T too often bundle services to force one to spend more than is desired or desirable. Smaller companies like LMI, offer pricing that is attractive to both consumers who want to stay connected, and to small family businesses and groups.

Thank you,

Gary Kelly
