Re: WT Docket No. 17-200
***Ex Parte* Presentation**

Dear Ms. Dortch:

On August 28, 2019, Chris Guttman-McCabe of CGM Advisors, and Jot Carpenter of Carpenter Strategic Consulting, LLC, both consultants to Anterix, Inc. (previously pdvWireless, Inc.), met with William Davenport, Chief of Staff and Senior Legal Advisor to Commissioner Geoffrey Starks, to discuss the Notice of Proposed Rulemaking (NPRM) in the above-identified proceeding. The Anterix representatives explained their support for the proposal in the NPRM to provide for mandatory retuning of remaining incumbents once a prospective broadband licensee had reached agreement with a significant percentage of incumbents in the county (the NPRM proposed incumbents controlling 90% of the channels within the 900 MHz Broadband Service by the end of year one of voluntary negotiation and 80% by year two), conditioned on the remaining incumbents receiving comparable facilities and payment of associated costs. They also endorsed the NPRM's proposal to exempt entirely from mandatory retuning "complex systems," defined in the NPRM as those with 65 or more integrated 900 MHz sites.

This letter is being filed electronically, in accordance with Section 1.1206(b) of the Commission's Rules, 47 C.F.R. § 1.1206(b), for inclusion in the record in these proceedings.

Kindly refer any questions or correspondence regarding this matter to the undersigned.

Very truly yours,

Elizabeth R. Sachs
Counsel for Anterix, Inc.
