**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I want to express very strong opposition to AT&T's request to discontinue wholesale pricing for smaller ISP's who are providing superior service especially to smaller, more rural communities. I have been a customer of Coastside Net for many years, after experiencing the very poor service and high prices provided by the giant carriers. Competition is essential for good service and pricing in this field!

You have already severely compromised the rights of end users by rolling back net neutrality to allow discrimination against smaller providers and businesses. This proposal to end competition is totally unacceptable and will cost consumers millions in added fees and charges, only to pad the pockets of the already rich...another reason to vote Democratic in future elections!

Sincerely,

Margaret Emrey
