**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a small business owner who strongly supports broadband competition. Because of this competition, my business was able to obtain and afford fiber internet service which greatly enhanced and continues to service my business needs.

Previously, I had AT&T DSL which had terrible phone and internet service. AT&T would raise rates monthly, slowing increasing my business costs, while lessening my service. The AT&T technician who came to improve performance said that AT&T was purposely withholding infrastructure improvements because they and Comcast were the only game in town. And Comcast was ridiculously expensive, with terrible service.

But because of competition, Sonic was able to deliver the service that my business needed. I do not want to return to the previous situation, where two large telecommunications giants controlled my business's access to the internet.

Please do not end broadband competition! Say NO to AT&T, Comcast, and their lobbying!

Regards,

Benjamin Chin
