**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

If America wants to stay competitive in a global market, citizens need access to affordable and fast internet connections. The internet is where most innovation and opportunity will happen in the coming decades. Personally, I often work from home and having an affordable fiber connection to collaborate remotely is critical. Previous DSL connections were much slower and more expensive making it harder to get work done. Please foster competition in this space.

Best,

Jonas Naimark
