**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I used to have to choose between Comcast and AT&T for my internet connection. The choice was between a sub-par quality cable that failed repeatedly as Comcast wanted me to add a service to subscription resulting in twice yearly price hikes for TV channels I never wanted in the first place, and AT&T copper internet that did not suffice to carry out my job related tasks from home nor was it fast enough to be useful for entertainment. Sonic's fiber service is cheaper than both alternatives while not forcing me to subscribe to services i do not need, and is at the same time FAR FASTER AND STABLE.

Regulation is a matter of freedom! Allowing monolithic companies to corner markets and removing choice from the consumer will only reduce the quality of internet access available. Do the right thing and keep regulation strong!
