Exhibit E-5

Radiation Hazard Statement

This application has been reviewed to determine if it complies with the radiation standards and the limits of radiation to which persons would be exposed in the area immediately around the tower base. The radiation, (the algebraic sum of both the horizontal and vertical components), is 12 kw. The ANSI standards that have been published indicate that the radius to the 1 mw/cm² contour is approximately 20 meters. The antenna will be mounted on the tower with the center of radiation 99 meters above ground level. The base of the tower will be enclosed by fence so as to restrict access to the base of the tower. The tower site is in a remote area that is not utilized for residences, and the nearest permanent residence is some distance away. The site will only be accessible to a limited number of persons and radiation warning signs will be placed at a number of locations on the fence enclosing the site. The applicant will advise maintenance personnel that power is to be reduced prior to undertaking any tower or transmitter site maintenance.

SECTION VI - EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

1. Does the applicant propose to employ five or more full-time employees?

Yes No

If Yes, the applicant must include an EEO program called for in the separate Broadcast Equal Employment Opportunity Program Report (FCC 896-A).

SECTION VII - CERTIFICATIONS

1. Has or will the applicant comply with the public notice requirement of 47 C.F.R. Section 73.3580?

Yes No

2. Has the applicant reasonable assurance, in good faith, that the site or structure proposed in Section V of this form, as the location of its transmitting antenna, will be available to the applicant for the applicant's intended purpose?

Yes No

If No, attach as an Exhibit, a full explanation.

Exhibit No.
N/A

3. If reasonable assurance is not based on applicant's ownership of the proposed site or structure, applicant certifies that it has obtained such reasonable assurance by contacting the owner or person possessing control of the site or structure.
