47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Why do you guys keep trying make my retirement more expensive and less capable? I live in an older condominium community where copper serves the entire complex. Why are you disregarding hundreds of users for what? Marginal increases in the big guys income and us getting screwed. If you truly want to increase broadband use and profits, how about giving them a big tax break when they 'convert that last mile from copper to fiber'.
